Buttons

Primary is the one main action on a screen. Secondary for alternatives. Text for low-weight actions. Height 48, full width on phone.

	Default	Hover	Pressed	Disabled

Text	See all activity	See all activity	See all activity	See all activity

Loading swaps the label for a 20 px spinner at a fixed width, so the button never resizes.

Inputs

Amount input for any USDC value; always shows the unit. Text and date fields for Goal setup. Height 56, radius 8.
