

Pamó

Keep it safe.

Brand story and philosophy

Tagline

Keep it safe.

Brand personality

Calm, trustworthy, plain-spoken.

In Yoruba, **pamó** means to keep something safe. That is the whole job of the app.

Most savings apps ask you to understand crypto before you can save. Pamo starts somewhere simpler: you have USDC, and you want to set it aside for something.

Put it in a pot. Each pot earns interest in a USDC lending vault while it sits. You choose how it earns, and you can always see the rate, what you have earned and when the money unlocks.

Mission and vision

Mission

To help everyday people set money aside in USDC and watch it earn, with every rate, fee and risk shown in plain words.

Vision

Saving in stablecoins should feel as ordinary and as safe as a savings account, for anyone with a phone.

**Visual
identity**

Logo construction

An abstract graphic design featuring a large, dark green circle in the background. Overlaid on the circle is a dark green parallelogram, tilted at an angle. The text 'Logo construction' is written in a bold, white, sans-serif font, positioned in the lower-left quadrant of the image.

Logo construction

Clear space: the height of the letter “a” on every side

The tone marks

The dot below and the accent above the o are the identity. They come from the Yoruba word and make the name impossible to mistake.

Plain black and white

The wordmark is black on white or white on black. Green belongs to buttons, gains and progress.

The compact mark

The ó on its own, for app icons and profile pictures. Below 32 px, use the P.

The Pamo product

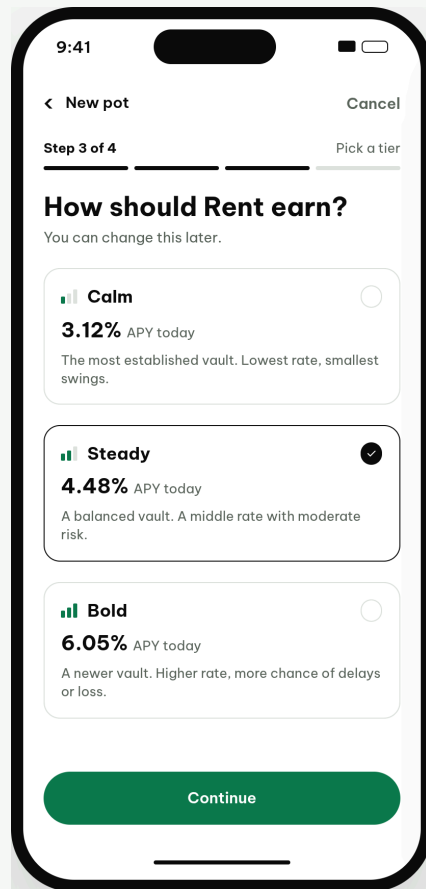

Pots

Name a pot for what the money is for. A Goal pot has a target and an unlock date. An Anytime pot lets you take money out whenever you need it.

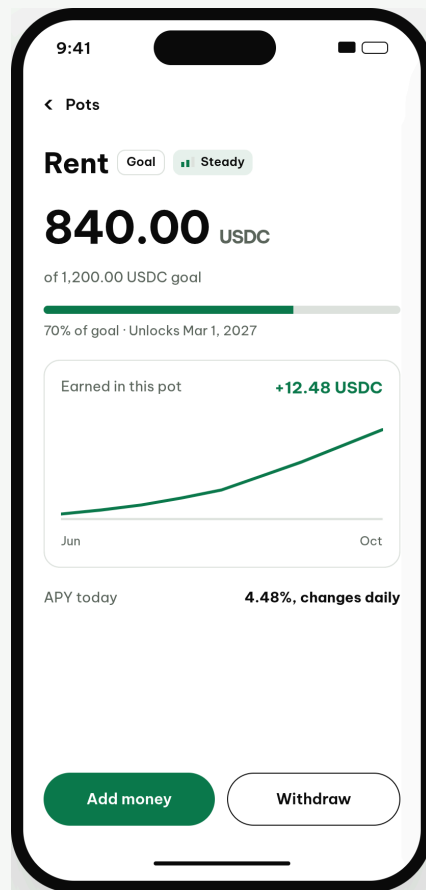

Calm, Steady, Bold

Each pot earns in one of three USDC lending vaults. Calm is the most established with the lowest rate. Bold is newer, with a higher rate and more risk. The rate is live and changes daily.

Earnings you can see

Every pot shows what it holds, what it has earned and how close it is to the goal. Gains are always in Pamo green, always with the unit.

Savings calculator

Pick a monthly amount, a number of months and a tier, and see an estimate at today's rate. It is labelled as an estimate, never a promise.

The screenshot shows a mobile app interface for a 'Savings calculator'. At the top, the status bar shows the time 9:41 and battery level. The app title 'Savings calculator' is displayed. Below it, the 'Each month' input field contains '200.00' with 'USDC' as the currency. The 'Months' section features a slider set to 12, with markers at 1 and 36. Three tier buttons are visible: 'Calm', 'Steady' (which is selected), and 'Bold'. A summary box titled 'After 12 months' shows a total of '2,449.90 USDC' and '+49.90 USDC earned'. A green line graph illustrates the growth over time. A disclaimer at the bottom of the summary box reads 'Estimate at today's rate of 4.48%. Not a promise.' A large green button at the bottom is labeled 'Start this pot'.
